

*The World's Finest and
Most Productive Bandsaws*

COUGAR XX

STABILIZED BANDSAWS

INCREASE YOUR RUNNING TIME WHILE IMPROVING RECOVERY

The COUGAR XX is not just a modification of an existing saw. It is an entirely new concept, starting with the finest European steel treated with our unique COUGAR XX electro-thermal process. The result is a truly remarkable saw that reflects our policy: to keep pace with the rapid developments in sawing machinery and mill efficiency. COUGAR XX offers:

- Higher fatigue strength
- Improved relaxation properties
- Thinner plate for narrower kerf
- Tension stabilizing for greater endurance
- Stellite® or swaged teeth

**RUN COUGAR XX BANDSAWS FOR HOURS LONGER
WITH LOWER DEVIATIONS AND HIGHER RECOVERIES**

Available in regular or customized
Varipitch® Tothing
