

ColdCut 1000 Series

Cermet Tipped Circular Saw Blades

Cermet tipped saw blades by Cut Technologies Metal, outperform carbide tipped saws by five to one. ColdCut A1000 blades are ideal for cutting aluminum/mild steel and ColdCut S1000 for steel.

quality means savings

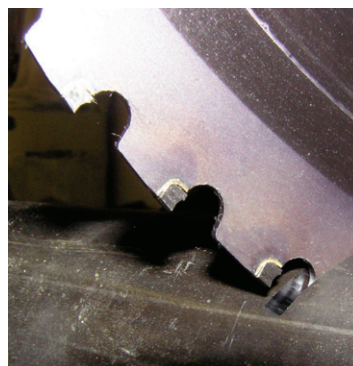

- Ideal for manual chop saws
- Cermet resists heat which can shorten life of traditional carbide
- Cut that often looks like a machined surface without irregularities and rough edges
- Outlasts carbide tipped saws five to one
- Effortless cutting through single or multiple pieces
- Virtually spark free cuts

ColdCut 1000 Series

SAW BLADE		TEETH	
Diameter	Bore	ColdCut A1000	ColdCut S1000
7 inches	5/8 inch	36	42
8 inches	1 inch	40	60
