

# Cermet Tipped CSM-1000

## Cold Saw Machine Circular Saw Blades

**Best for  
Cold Saw  
Machines**

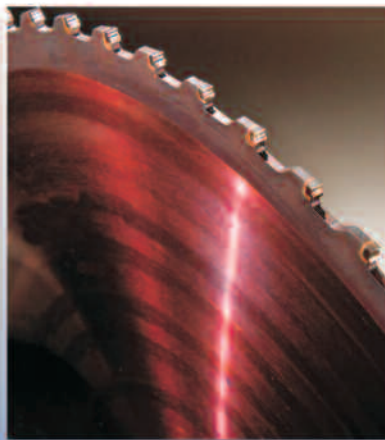

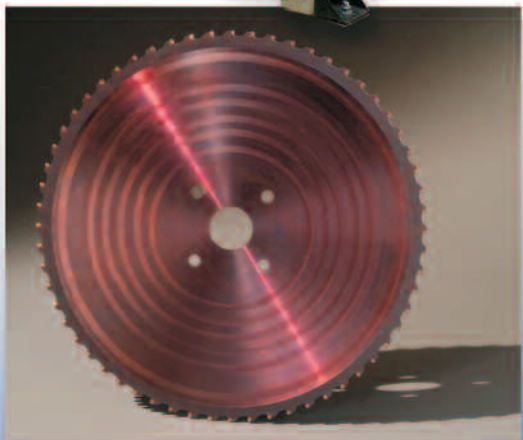

### IDEAL FOR MILD STEEL/ALUMINUM

Cermet tipped saw blades by Cut Technologies Metal, allow mild steel and aluminum to be cut faster and with less material loss due to kerf. These blades work perfectly with all leading cold saw machines.

## quality means savings

- Thermex™ oxide coating on every blade
- Unique tension stabilizing for lowest deviation
- Thermal/pressure leveled for exceptional flatness
- Triple chip design
- Longer edge life compared to HSS or carbide-tipped saws
- Thin kerf blades
- Repeatable quality, cut after cut, blade after blade
- Better cut quality compared to HSS or carbide tipped blade

**CSM-1000: Ideal for cutting Mild Steel/Aluminum.**  
*Blades can be resharpened.*
