

THE ULTIMATE HIGH-PERFORMANCE SAW

COUGAR XX

THE ROUND SAW OF THE FUTURE

Advanced Technology Steel Plate, Permanently Tension-stabilized for Unequaled Performance

GET THESE PROVEN BENEFITS WITH COUGAR XX

- Thermal/pressure leveled for permanent flatness never needs releveling by hand or machine.
- Built-in memory repeatedly returns to original tension.
- Greatly increased elasticity in saw plate.
- Longer running time because saw does not lose level and tension in operation.
- Thinner plate for narrowest kerf in its category.
- Big reduction in time to bench coming off mill.
- Significantly better target sizes and yields.

Increase production revenues significantly and immediately, with zero capital expenditure!
